

DISCOVERY

Introductory NLP evening

Introduction to the Art & Science of Neuro Linguistic Programming (NLP)

“Discovery” is an evening of just that, discovering the why, what and how of NLP. It is an evening of demonstrating the effectiveness, speed and power of NLP to bring about lasting positive change in a persons life.

Because NLP is a system of observing and acquiring new behaviour, it can be used to help acquire that which is important to you.

Areas that are covered for discussion and demonstration include:

- Sales
- Relationships
- Memory
- Wealth
- Decisions
- Health
- and more ...
- Business
- Learning
- Happiness
- Phobia
- Depression
- Sport

Success and Happiness are no accident. Every successful person has a particular map or a model. NLP is a system of discovering, modelling and installing those maps and models in others so they too can achieve the desired results.
