Sat 19th, Sun 20th July 2008	Sydney
<b>Module 4</b>	<b>\$850</b>
Sat 26th, Sun 27th July 2008	Sydney
Package deal - all 4 modules paid together <b>\$3,400</b> (Inc. GST)	<b>save \$1,100</b>

## The Power of knowing

What is NLP Master Practitioner Certification? One student described it as the missing operating manual for the human mind. In many ways, it is a doorway into another world of understanding and knowledge. It is the ability to expand personal awareness to the point of being able to positively influence both self and others with a sentence or gesture. Each individual who undertakes NLP Master Practitioner Certification will have a different application for the training.

NLP Master Practitioner is about understanding the inner workings of the human mind and nervous system, and how behavior is controlled and created. This practical knowledge and the accompanying skills and techniques are essential for those in positions of responsibility or leadership (or who aspire to be). It is essential learning for any individual in positions that require that he or she influence the behaviour or thinking of others, like sales, marketing, teaching, business and law. To the therapist, counsellor, coach, it is the difference between *guessing* and *knowing* the right thing to do to get that break-through or change of behaviour. To the natural therapist, it is a wonderful tool for bringing into alignment the mind and the body. To the parent, it is the operating manual that was accidentally left at the hospital. For everyone, it is a journey of self-discovery that leads to inner peace.
